

WHAT'S NEW???

Sample Water Slide

Installation of the pool's new water slide began in April with the removal of the old diving board stand. Below are photos of John Kemper, Dennis Pritchett and other handy members removing the old stand, filling in the resulting hole and driving new bolt holes to firmly emplace the new slide. Purchase of the new slide has been made possible by generous donations from pool members. They and the rest of the pool community will soon be able to enjoy lots of fun on the slide when the slide opens for business on the Pool's Opening Day, May 28, 2005.
